

Bargaining Team

Kari Koch
She or they
Coordinator II
Bureau of Development Services

Along with my candidacy for union President, I am also running to represent the union on the Bargaining Team.

As a founding member of the Bargaining Committee and current President of the Organizing Committee, I have already been participating in a number of contract-related activities:

- Sitting on the citywide Labor Management Benefits Committee to learn about the current healthcare plans and proposed changes for 2024;
- Organizing info sessions with members about current Status Quo protections in the HRAR;
- Working on the first bargaining survey that went out over the summer and using that to inform contract discussions;
- Coordinating weekly bargaining committee meetings to draft contract ideas/language.

I am committed to continuing this work to secure a strong contract for CPPW members.

If elected President and Bargaining Team member, I will bridge the executive leadership team and the active negotiating group to ensure clear lines of communication and responsibility.
